it is not uncommon to find books and other publications in the literature dealing individually with the subjects of decision sciences technology and globalisation however there are very few instances of books which integrate these three dimensions in an umbrella framework this publication is one such attempt this book comprises of 58 papers contributed by leading academia from universities and management institutes in india and abroad many of the contributions have come from usa canada uk japan australia new zealand uae bahrain taiwan brazil and mexico adding to the rich diversity of the thought processes explored in the papers some of these papers are country specific while some others provide a transnational perspective also while some papers provide enriched conceptual frameworks in specific disciplines building upon existing frameworks several other papers provide application oriented coverage focused at select organizations or industries further adding unique value to this book there are eight sections in the book namely supply chain management operations management information systems ict it e business strategies business modeling global business issues challenges marketing and globalisation new paradigms in

education and globalisation the issues touched upon by various papers within each section are diverse and yet highly relevant and contemporary we believe this book would be useful not only to academia research scholars and students of various disciplines of management but also to those in the industry in india and abroad who are seeking conceptual inputs and experience sharing in their respective positions

mathematics curriculum which is often a focus in education reforms has not received extensive research attention until recently ongoing mathematics curriculum changes in many education systems call for further research and sharing of effective curriculum policies and practices that can help lead to the improvement of school education this book provides a unique international perspective on diverse curriculum issues and practices in different education systems offering a comprehensive picture of various stages along curriculum transformation from the intended to the achieved and showing how curriculum changes in various stages contribute to mathematics teaching and learning in different educational systems and cultural contexts the book is organized to help readers learn not only from reading individual chapters but also from reading across chapters and sections to explore broader themes including identifying what is important in mathematics for teaching and learning in different education systems understanding mathematics curriculum and its changes that are valued over time in different education systems identifying and analyzing effective curriculum practices probing effective infrastructure for curriculum development and implementation mathematics curriculum in school education brings new insights into curriculum policies and practices to the international community of mathematics education with 29 chapters and four section prefaces contributed by 56 scholars from 14 different education systems this rich collection is indispensable reading for mathematics educators researchers curriculum developers and graduate students interested in learning about recent curriculum development research and practices in different education systems it will help readers to reflect on curriculum policies and practices in their own education systems and also inspire them to identify and further explore new areas of curriculum research for improving mathematics teaching and learning

this volume is a collection of scholarly papers that explore the complex issues concerning english studies in the present indian context the discussions in this volume range from historical perspectives to classroom specific pedagogies from sociological and political hierarchies to the dynamics of intellectual development in the english language environment interrogating both policy and practice pertaining to english studies in the context of indian society culture history literature and governance the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities since the introduction of english to india more than 2 centuries ago the language has transmuted the very fabric of indian society culture history literature and governance the idea of india cannot be conceived in its entirety without taking into consideration the epistemological role that english has played in its formation the present globalized world order has added dimensions to english studies which are radically different from those of india s colonial and postcolonial past it is therefore imperative that the multitudinous shades and shadows of the discipline be re examined with inputs drawn from the present context this volume is for scholars and researchers of english literature and language studies linguistics and culture studies and others interested in exploring new paradigms of engagement with the disciplinary formulation of english studies in india

continuing its calling to define the field and where it is going the second edition of this landmark handbook brings up to date its comprehensive reportage of scholarly developments and school curriculum initiatives worldwide providing a panoramic view of the state of curriculum studies globally its international scope and currency and range of research and theory reflect and contribute significantly to the ongoing internationalization of curriculum studies and its growth as a field worldwide changes in the second edition five new or updated introductory chapters pose transnational challenges to key questions curriculum research addresses locally countries absent in the first edition are represented chile colombia cypress ethiopia germany iran luxembourg nigeria peru poland portugal singapore south africa spain and switzerland 39 new or updated chapters on curriculum research in 34 countries highlight curriculum research that is not widely known in north america this handbook is an indispensable resource for prospective and practicing teachers for curriculum studies scholars and for education students around the world
